

"Gifu, the Land of Clear Waters" Expands a Lifestyle Coexisting with Nature

Gifu Prefecture has been blessed with beautiful natural scenery since ancient times, with “clear waters” that originate from lush forests, and has inherited a world-renowned history, traditional culture, food culture, and artisan skills that have been nurtured by these waters. People have been living while coexisting with nature.

At Gifu Green Life Festival 2025, seven venues will be set up under each theme, with flowers and greenery as the starting points, and a variety of programs will be provided to allow visitors to experience a lifestyle (“green life”) coexisting with nature in “Gifu, the Land of Clear Waters.”

A Gifu World Rose Garden

Venue Theme Roses and Flowers

The gorgeous venue will be centered around the world-class rose garden, adding the effects of floral and greenery, to create an impression through the beauty of flowers, as well as programs that will allow people to experience the richness and joy of a life surrounded by flowers and greenery.

B Gifu Seiryu Satoyama Park

Venue Theme Satoyama Greenery

The park will feature terraced fields, giving the venue the feel of a Satoyama where people and nature coexist. We will provide programs where visitors will be able to become familiar with Satoyama lifestyles and culture, and consider its conservation and utilization.
